**-DETAILED ACTION**

**Summary**

On April 26, 2005, an Office Action was mailed to the Applicant rejecting claims 1-10. On July 26, 2005, the Applicant responded by canceling claims 6-8.

***Specification***

The objections have been withdrawn.

***Claim Objections***

The objections have been withdrawn.

***Claim Rejections - 35 USC § 112***

The rejections have been withdrawn.

***Claim Rejections - 35 USC § 101***

The rejections have been withdrawn.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5 and 9-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Hollar (US 2003/0126048), as set forth in the previous Office Action.

With regard to the amendment to claims 1 and 9, Hollar discloses a depreciation period setting module for setting depreciation periods for any type of asset (p.8, 99-100 and p.9, 106).

### ***Response to Arguments***

Applicant's arguments filed July 26, 2005 have been fully considered but they are not persuasive. The Applicant argues that Hollar does not disclose a depreciation period setting module for setting appropriate depreciation periods for fixed assets. In response, Hollar discloses a depreciation period setting module for setting depreciation periods for any type of asset (p.8, 99-100 and p.9, 106). Therefore, the Examiner is interpreting Hollar as reading onto the invention substantially as claimed.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3624

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
